ABDULLAH ZULFIQAR

.NET FULL STACK DEVELOPER

Lahore, Pakistan • WhatsApp: +92 333 4320471 • abdullahzulfiqar137@gmail.com
Portfolio • GitHub • LinkedIn

PROFESSIONAL SUMMARY

Results-driven .NET Full Stack Developer with 1+ year of hands-on experience designing and delivering scalable web applications using C#, ASP.NET Core (.NET 8), Angular, TypeScript, Entity Framework Core, and SQL Server. Experienced in architecting secure RESTful APIs, implementing Repository & Clean Architecture patterns, optimizing database queries, and developing responsive Single Page Applications (SPAs). Focused on writing maintainable, clean code, optimizing performance, and building reliable enterprise software.

TECHNICAL SKILLS

Backend:	C#, .NET 8, ASP.NET Core, .NET Web API, Entity Framework Core (Code-First), LINQ, RESTful APIs
Frontend:	Angular, TypeScript, JavaScript (ES6+), HTML5, CSS3/SCSS, RxJS, Reactive Forms, Responsive Web Design
Architecture & Auth:	Clean Architecture, Repository Pattern, Dependency Injection (DI), SOLID Principles, JWT, ASP.NET Core Identity
Database:	Microsoft SQL Server, T-SQL, Stored Procedures, Schema Design, Indexing, Query Optimization
Tools & Platforms:	Visual Studio 2022, VS Code, SSMS, Git, GitHub, Postman, Swagger/OpenAPI, GitHub Pages

PROFESSIONAL EXPERIENCE

Full Stack .NET Developer — Awatech Technology Solutions 2024 – Present
Lahore, Pakistan

- Architected and implemented high-performance RESTful APIs in ASP.NET Core (.NET 8) utilizing the Repository Pattern and Dependency Injection for scalable business logic.
- Engineered dynamic, modular frontend features in Angular and TypeScript using RxJS and Reactive Forms for clean state management and input validation.
- Implemented Entity Framework Core (Code-First) with automated database migrations, ensuring structured data access layers and transactional integrity.
- Designed and optimized SQL Server database schemas, stored procedures, and indexes to boost query execution speed and resolve latency bottlenecks.
- Secured endpoints with JWT authentication and role-based authorization; streamlined frontend–backend integration through Swagger and Postman.

SELECTED PROJECTS

BizOps Platform — Enterprise Business Operations System Angular • ASP.NET Core • EF Core • SQL Server

- Developed backend APIs supporting core business processes, multi-role user authentication, and transaction workflows with robust data validation.
- Implemented SQL Server data persistence and transactional integrity using Entity Framework Core with optimized LINQ queries.
- Constructed intuitive Angular dashboard interfaces with reusable components, reactive forms, and role-based navigation guards.

Developer Portfolio Website — Personal Showcase [Live Demo] Angular • TypeScript • SCSS • GitHub Pages

- Built reusable, mobile-first Angular components and responsive layouts to showcase full-stack projects and technical skills.
- Achieved 95+ Google Lighthouse scores through asset optimization and route lazy-loading; deployed via GitHub Pages.

EDUCATION

Bachelor of Science in Information Technology and Management Expected 2027
National College of Business Administration and Economics (NCBA&E) Lahore, Pakistan

Associate Degree Program (ADP) in Information Technology Management Completed (2022 – 2024)
Riphah International University Lahore, Pakistan
